# WHY USE MHX ROD BLANKS?

MHX is the culmination of decades of combined experience in fishing rod manufacturing, custom rod building and fishing. Incorporating a series of advanced material & manufacturing techniques, application-specific designs, and warranty innovations never before offered to custom rod builders, MHX has become the benchmark for quality and performance. [LEARN MORE AT WWW.FISHMHX.COM](http://WWW.FISHMHX.COM)

## MHX ROD BLANKS ARE ONLY AVAILABLE TO CUSTOM ROD BUILDERS

MHX blanks are not available as factory production rods, they are only available to custom rod builders. This exclusive access provides the custom rod builder with a lineup of blanks which are above and beyond what can be offered by mass production manufacturers. When using an MHX blank, custom rod builders can offer a truly custom rod without competition from a rod factory.

## LIMITED LIFETIME TRANSFERRABLE ROD BLANK WARRANTY

MHX again sets the standard with our exclusive limited lifetime transferable warranty. Each rod blank can be registered online with its individual serial number by either the custom rod builder or the end user of the rod. When registered, the blank's unique serial number identifies that rod blank to registrant. If the registrant sells or gives the rod blank or finished rod to another person, the warranty can be transferred to the new owner – an industry first! In order to activate your warranty, you must register your MHX rod blank. Warranty claims will not be accepted without a valid serial number on file.

# TRUST MHX QUALITY

## APPLICATION SPECIFIC ROD BLANKS

Each MHX blank is designed and produced for specific applications and uses. The design information is listed along with each blank to provide the custom rod builder with usage and application suggestions.

## QUALITY CONTROL

Under a 7 point inspection system, blanks are checked for straightness, butt and tip diameter, weight & length – and are deflected to confirm correct power and blank action. This industry leading detailed inspection assures custom rod builders receive a blank which exceeds their expectations.

## INDIVIDUAL SERIAL NUMBERS

Once it has passed the quality control stage, each MHX blank is assigned an individual serial number. This assures that every MHX rod you build, fish, buy or sell can be tracked throughout its life cycle from end to end with no concern about warranty issues.

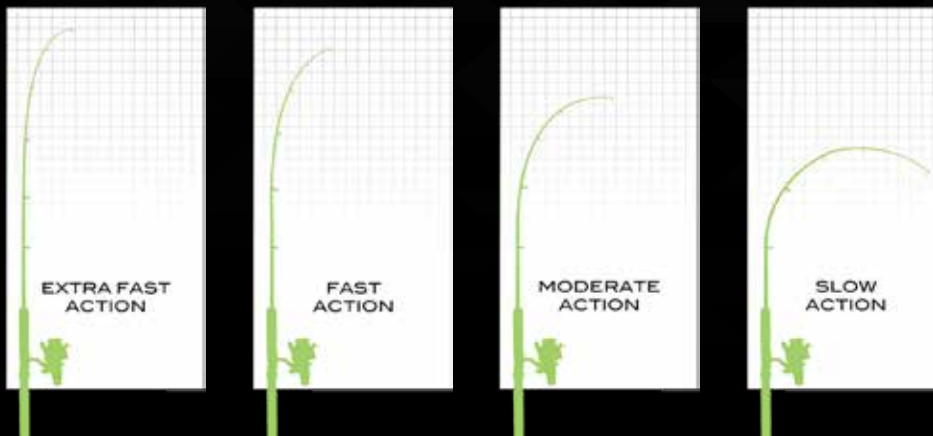

# ROD ACTION VS. POWER

## ROD POWER:

The “power” of a rod refers to how much pressure it takes to flex the rod. Different rod powers are engineered to efficiently handle a certain range of lure weights and line sizes. To select a rod power that will perform best for you, simply narrow your choices to rods designed to cast the weight of lures – and sizes of lines – you'll fish with most often.

## ROD ACTION:

The “action” of a rod is determined by where a rod flexes along the blank. Faster action rods flex mostly near the tip. Moderate action rods flex more near the middle of the blank. Slower action rods flex down into the butt section.

**X-Fast** - Extra Fast action rods offer a high degree of tip sensitivity and offer faster power during hook set. While it can be used in a variety of fishing situations, it is most popular with single hooks applications like worming and jigging.

**Fast Action** - Fast action rods are a great choice when you want a rod for all fishing applications. This is because it is a healthy balance of fast tip and sensitivity, while still providing some forgiving power for a softer hook set.

**Moderate Action** - With moderate action rods you trade a little less sensitivity for a little more casting range. These are great rods for treble hook applications like crankbaits because the lighter action on hook set keeps the lure in the fish's mouth.

**Slow Action** - Slow action rods bend most of the way down, and have become much less popular in today's fishing applications due to the technology advances in rod design – but ultra-light and some fly fishing applications still utilize these soft rods.

# MHX PERFORMANCE.

PRO

## ► ELITE PRO SERIES

The MHX Elite Pro Series is completely different from past MHX models from the ground up. With all new Tooling, Materials and Resin System these Small Diameter Lightweight Gems will definitely fill your tournament needs. Utilizing a 50 million modulus Toray Japanese Fiber and Advanced Resin System these Japanese style Bass Blanks are not only light, but the balance is unbelievable. We often get the question from the builder "I cannot decide whether to use the Standard MHX or the High Mod version" Well now you will have the best of both worlds. Durability, Light Weight, Small Diameter, Sensitivity.

## ► MAG TAPER BLANKS

These traditional fast action blanks have been the core of the bass fishing market. Very stout butt's with softer tips in virtually any length and power necessary. Design and material type make these blanks very sensitive & durable.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

Finish: SLATE

**Worming :** Great choice for dense cover worming & heavier Carolina rig applications through grass.

**Spinnerbaits :** Enough power & action to confidently work spinnerbaits & buzzbaits around dense cover.

**Top Water :** Cast large plugs & jerk baits near any structure & use the fast action to walk it into the strike.

**Jig & Pig:** Enough power to throw jigs into the most dense cover & fast action for great hook sets.

# CHAMPIONSHIPS ARE BUILT.

## ► MAG XF BLANKS

We have taken the proven MHX Mag Taper and High-Mod lines and created Extra Fast tapers for those of you that demand these types of actions in your everyday fishing.

We have been testing these models for over a year and their performance is outstanding. With specialty applications in mind like Jerk Baits, Spinner Baits, Chatter baits and Top Water these models will not disappoint.

Finish: SLATE

**Jerk Baits :** Faster action rods let you work that jerk bait perfectly to lure fish from cover & structure.

**Worming :** Perfect choice for lighter worming applications due to the X-Fast action & great hook sets.

**Top Water :** Fish will not be able to resist the frog & Zara actions generated from our X-Fast tips.

**Jig & Pig :** Enough power to throw jigs into the most dense cover & X-Fast action for deep hook sets.

# FISH LIKE A PRO.

## ► SPINNERBAIT BLANKS

Whether slow rolling a bait through submerged structure or ripping a blade across the surface you will be covered with these two application specific blanks. With X. fast tips and powerful butts you have the sensitivity necessary to add the pounds to the live well.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Spinnerbaits :** Works perfectly for fishing Colorado, Willow & Dimpled blade types in cover or any depth.

**Buzzbaits :** Combining power with sensitivity, throw and work your buzzbait through heavy cover.

**Top Water :** Rod stores a ton of energy for longer casts, allowing you to walk your Zara right into the bite.

**Live Bait :** The spinnerbait rod specs also make it a more than acceptable shiner rod, or catfish mudder.

## ► SPINNING SERIES BLANKS

Whether fishing farm ponds for Pan Fish or mountain streams for Brook Trout you are covered here with an extensive line of lengths / powers & actions. Light weight & sensitive these blanks have been developed for delicate presentations and light line.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Trout :** Perhaps the best selection when fishing for local Rainbows, Brookies & Speckled trout.

**Perch :** With lighter power & faster tips, these make great Yellow Perch, Panfish & Walleye rods.

**Streams :** Great multi-species rods when fishing lighter spinners, spoons, bait & jigs in streams.

**All Purpose :** These are great all purpose rods to use when you want a faster action with light power.

## ► SPIN JIG BLANKS

This line has set the mark for all others to shoot for in Bass Spinning rods, while these blanks can be built in either spinning or conventional design. Fast action with light tips these blanks have become a staple in other applications such as light inshore saltwater.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Live Bait :** Fish bait with these fast action & medium power rods with bobbers, weights or free line.

**Twitch :** These faster rod tops take in line & helps you work that twitch bait with livelier action.

**Jiggin' :** Work smaller tube baits & finesse lures with the power and sensitivity jigging requires.

**Drop Shot :** Great for vertical drop shotting when light to medium sized weights are ideal.

High Performance Gloss White Finish

## ► DROPSHOT BLANKS

Drop Shotting has become a preferred finesse method for getting those finicky Large Mouth and Smallies to commit. X-light sensitive tips are a must for proper presentation, along with the power in the butt to bring it home.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Drop Shot :** Use the heavy power to get your drop shot weight down & faster action to hook the bite.

**Popping :** Faster action tops to snap down on that popper & the power to hook & land that lunker.

**Live Bait :** These rods work great when fishing larger shiners or free lining bait – fresh or light saltwater.

**Worming :** Looking for versatility? These rods can also be used for Texas & Carolina rig applications.

Stock #	Length	Pcs.	Line	Lure	Action	Power	Application	Wt.	Butt	Tip	Price

## ► SWIMBAIT BLANKS

These two models have been developed for the serious swim bait fishers that are throwing the large life like baits long distances to cover more water in less time. Capable of launching the largest of lures and working them in a life like manner with the power to get the Hawgs to the boat. SWB956-Blend is a favorite for throwing "A-Rigs".

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Umbrellas :** Throwing umbrella rigs require rods like these that have the action & power to support it.

**Soft Body :** Huck those huge soft body swimmers & have the action to work them in steady or jerked.

**Hard Body :** Larger lipped swimbaits can really be a problem to cast & work correctly without MHX power.

**Paddle Tails :** Cast big paddle tails around structure knowing you have the power to get the fish out.

## ► FLIPPIN' & PITCHIN' BLANKS

Just the ticket for any Bass fishers Flippin' needs. We have the lengths & powers necessary to arm yourself with the perfect flippin' stick.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Flippin' :** Pitch your favorite plastics into dense cover & have enough power to get the fish out.

**Punchin' :** Perfect rods for punchin' a heavy weight through cover & fast action for a great hook set.

**Jiggin' :** Bigger jigs can be up to 2 oz. & these MHX rods give you the power & sensitivity required.

**Worming' :** Great option if you are looking for a fast action & heavy power Carolina fishing rod.

**Buoy Rig :** These rods are strong enough to handle the stress needed with breakaway rigging.

**Float Rig :** Fish large buoy floats & heavy 5 oz. egg sinkers with no problems – MHX handles it!

**Klonking :** These strong rods are perfect for this vertical sinker and bait technique for huge cats.

**XX-Heavy :** The Euro Cat rods are great for targeting huge game fish with heavy weights & floats.

**Free Line :** Great rod action for free lining kernels when using a bread crumb and corn chum mix.

**Floats :** Rod action is fast enough to bring in slack line, while strong enough to fight the fish.

**Sinkers:** Throw those big weights – great for grubs & worms, shrimp and dough ball applications.

**Spinning :** When the carp surface in schools, try using a spinning lure for some quick action.

## ► INSHORE (POPPIN') BLANKS

The MHX Inshore Saltwater series incorporates innovative designs of both traditional and progressive actions. The multi modulus materials allow us to utilize the correct material in each portion of the blank.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Live Bait :** Use live bait with weight, cork, or free line it – these rods control the fight & land fish.

**Poppin' :** These rods provide enough support & action to snap your poppin' cork and make it scream!

**Jiggin' :** Throw your favorite Shakey Head and enjoy the sensitivity of the strike & power to fight.

**Top Water:** Anglers who enjoy top water will love how easy it is to work twitch baits and walk top water.

High Performance Gloss White Finish

## ► SHOOTER BLANKS

MHX Shooter Series have been designed in shorter lengths and fast actions to build with pistol grips or short rear grips for underhand casting and skipping under cover such as docks, mangroves and overhanging trees.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

**Tubing :** Shorter grip area allows you to flip tube & finesse baits around docks & under tree limbs.

**Top Water :** Use the shorter grip area to really snap top water lures & walk them right into a strike.

**Jigging :** These shorter rods can throw larger jigs & still offer the power & sensitivity required.

**Trolling :** Trolling rods that marry well to down rigging, and medium depth applications.

**The Surf :** Hook on an eel & cast it out past the breakers, then have the power to bring it back to land!

**The Pier :** Out-cast your fellow pier fisherman, and have enough sensitivity to feel the strike.

**The Jetty :** Out-cast your fellow pier fisherman, and have enough sensitivity to feel the strike.

**The Bar :** Cast your jigs and plugs over the sand bar, and work that cut line to trigger that strike.

## ► PANFISH & CRAPPIE BLANKS

This series has probably had the most requests of any since our very first offerings. After a lengthy period of time developing and testing this unique lineup we are very excited to present what we call very lovingly "Uncle Moon Pie's Crappie Series".

With 4 graphite models in 9', 10, 12' and 14' and 3 fiberglass 2pc. Models in 4'6", 5'6" & 6' this line should cover any of your panfish needs. At least that's what Moon Pie tells us – "Y'all got it nailed".

**Panfish :** These are great general purpose rods for anglers who enjoy targeting all sorts of panfish.

**Crappie :** Longer rod lengths help reduce line tangles when trolling with multiple (4+) lines.

**Perch :** Shorter rod lengths are perfect for vertical drop lining & jigging for perch & brim.

**Travel :** These rods come in multi-piece models which are great for traveling & camping.

## ► TRAVEL BLANKS

It will no longer be necessary to step down to an inferior travel blank when you are building a rod for your long range excursions. That's right, MHX has developed an extensive line of Freshwater & Saltwater models to fill your needs.

You will now be able to build on the same high quality superior performance blanks for your travel needs. With blanks from 6lbs. (2.7kg) to 40lbs. (18kg) we will have you covered for those special trips.

**Freshwater :** From Crappie to Musky, there is a MHX travel rod that can fight any freshwater fish.

**Saltwater :** Not ideal for Marlin, but works great for all light to medium saltwater applications.

**Multi-Purpose :** 3 piece rods great for travel, camping, hiking, or just to keep in the back of your truck.

**Ferrules :** MHX Travel blanks feature tip over butt ferrules plus a stealthy slate finish.

...IS THE  
**ULTIMATE  
ADVANTAGE™**

- HENRY WASZCZUK

Fishing the Flats is one of the country's top saltwater TV series. It has consistently been the top ranked show in the outdoor block of various networks, and there are many reasons for that. The education, the entertainment value, awesome destinations and hot spots, a variety of fish species, great fish recipes on the grill and so much more.

# SALMON & STEELHEAD

## ► SALMON & STEELHEAD BLANKS

As is the case with all of the MHX series of rod blanks – what truly makes this series of Salmon & Steelhead blanks is the experience level that goes into it's design.

Not only do the people designing them know what to look for in a Steelhead & Salmon rod, but also know how to utilize the materials available and tapers of the mandrels to achieve the specific actions and powers desired for certain applications. With models available for virtually every application, we feel that this series will be one of the most comprehensive lineups in the market.

**Drifting :** Sensitive enough to feel those soft mouth bites – strong enough to land the fish!

**Hot Shot :** A fast action top paired with medium power base results in a great deep diver rod.

**Downrigger :** Heavy power to catch a monster – softer action keeps the hook in the fish's mouth.

**Bobber Jig:** Longer, lighter rods & line that are perfect for casting & working the bobber-jig.

## ► HOT SHOT BLANKS

Hot Shotting is an application Salmon & Steelheaders utilize in rivers where they basically back troll a small lipped plug or wobbler. The actions which utilize a light tip and soft upper mid section allow these diving plugs to work in the current properly. This style of blank has also become a favorite of inshore fishers for light saltwater applications.

These lightweight, yet powerful rod blanks provide the professional custom builder and hobbyist a dependable rod blank they can rely on for years to come. All blanks come with a Limited Lifetime Warranty.

## ► HEAVY FRESHWATER BLANKS

MHX's new Musky/Saltwater series incorporates the most popular lengths and powers into the same world class blank manufacturing processes as the original lineup. 7' to 9' lengths in the actions and powers that you demand as an angler stalking the fish of 10,000 casts. This lineup includes models developed for Bucktails, Topwaters, Swimbaits, Jerkbait and all of your favorite lures and applications.

**Live Bait :** Use live bait with weight, cork, or free line it – these rods control the fight & land fish.

**Poppin' :** These rods provide enough support & action to snap your poppin' cork and make it scream!

**Swimbait :** Power to throw and work larger swimbaits, with a forgiving action for great hook sets.

**Top Water :** Anglers who enjoy top water will love how easy it is to work twitch baits and walk top water.

## ► INSHORE & LIGHT SALTWATER BLANKS

The MHX Inshore Saltwater series incorporates innovative designs of both traditional and progressive actions. The multi modulus materials allow us to utilize the correct material in each portion of the blank.

An advanced production process that is second to none creates a series of blanks unparalleled in today's market place. The MHX series are as much as 40% lighter than comparable standard graphite models and incredibly more sensitive.

Finish: GLOSS BLACK

-  **Live Bait :** Use live bait with weight, cork, or free line it – these rods control the fight & land fish.
-  **Poppin' :** These rods provide enough support & action to snap your poppin' cork and make it scream!
-  **Jiggin' :** Throw your favorite Shakey Head and enjoy the sensitivity of the strike & power to fight.
-  **Top Water:** Anglers who enjoy top water will love how easy it is to work twitch baits and walk top water.

# BENDING THE LIMITS OF ROD BLANK TECHNOLOGY.

# SALTWATER BLANKS

# TER BLANKS

# CUSTOM SALTWATER ROD BLANKS

## ► HEAVY SALTWATER BLANKS

With this new exciting Saltwater series of blanks, MHX has utilized some new technology incorporating a new hardened resin system along with full length woven carbon fabric and the new MHX High Pressure Rolling System (HPR).

This along with the fact that each model has been developed more for specific species / applications than just generic designations such as trolling / bottom models. With virtually every Pelagic species in mind, this new line of blanks will soon be your Go-To Saltwater Sticks.

**Trolling :** Trolling rods that marry well to down rigging, kite spreads, and medium depth applications.

**Bottom :** Fish those big weights & baits with confidence, and have the power to control the fight.

**Jigging :** Big jigs can be 3 oz. or more, and MHX gives you the power and sensitivity jigging requires.

**Top Water :** MHX rods allow you to throw those huge plugs, and walk them perfectly into a strike.

**MHX**  
WORLD CLASS ROD BLANKS

### ► LARRY DAHLBERG BLANKS

The Larry Dahlberg Signature Series MHX Blanks are made of 4 models – medium, heavy and extra heavy, plus a trolling blank. The medium will handle lures from a half ounce up to two ounces. The heavy will handle a wider range on the top end (3 Oz) and still cast 3/4 lures easily.

**Traveling :** In short, they are exactly what I've wanted for years, fish great and are a breeze to travel packing down to a nice tidy 56 inches! Every single person I've fished with who's made a cast and worked a lure with them wanted one! Even dyed in the wool "one piece" guys. If you're a traveling lure chucker who tosses the big stuff you won't be disappointed!"

**Big Fish :** "These babies are what I use when I'm slinging lures for everything from small (up to 80 lb) tuna, to muskies, cubera, roosters, pcocks, bull reds, tarpon, stripers, pike, payara, nile perch, golden dorado, wolf fish, you name it, they're all you need for anything that eats big lures or lives in heavy cover. Excellent for "bait and switch" sailfish and small marlin as well!"

**Versatility :** "These blanks can be used in either bait casting or spinning configuration. Size ten ring on bait caster tip and first 4 guides for easy knot clearance. Select the butt and foregrip length of your preference. (Larry likes to use both 12" and 14"). He also uses a balancer with two or three weights depending on butt length with a triggered reel seat on baitcaster, standard on spin.

# CUSTOM ICE FISHING BLANKS

## ► ICE FISHING BLANKS

These new solid carbon ice blanks have been developed to offer the highest quality blank of it's kind coupled with the highest level of sensitivity and the greatest power to weight ratio available. Solid carbon blanks offer intense durability in the most extreme elements leaving no ill-effect on performance.

These lightweight, yet powerful rod blanks provide the professional custom builder and hobbyist a dependable rod blank they can rely on for years to come. All blanks come with a Limited Lifetime Warranty.

**Jigging :** The fast action rods are perfect for vertical spoons and jig heads.

**Live Bait :** Bobbers, free line, or split shot – these rods allow quick hook sets.

**Finesse :** Amazing rod action to make finesse plastics quiver & shake with ease.

**Lunker Up :** Ice rods available that allow you to gear up for those pike and musky.

GEN 2

HIGH MODULUS ROD BLANKS

## 100% JAPANESE TORAY FIBER

### HIGH MODULUS GEN 2

#### ► HIGH MODULUS GEN II BLANKS

The New High-Mod Generation II blanks feature 100% Japanese Toray Fiber and incorporate a new hardened resin system.

By utilizing state of the art technology and materials available on the market, MHX was able to achieve several goals with the Gen. II's including: Overall reduction in blank diameters, reducing weight where possible while increasing durability and increasing blank sensitivity. Blanks feature a polished graphite finish, and are still some of the lightest and most sensitive rod blank series in the world, regardless of price.

**Spinnerbait :** Feel every click from your spinner / buzzbait blades & get a great hook set.

**Worming :** Heavier power options for Bass anglers who throw into dense structure.

**Spin Jig :** From spinning, jigging, to live bait – the MHX HM Spin Jig rods can do it all!

**Popping :** From Sea Trout to Snook, make your popper scream & entice that bite.

### ► MHX WINN GRIPS

Superior polymer grip technology puts control and comfort quite literally in the angler's hand and provides tacky sure-grip security even in cold and wet conditions! Includes Winn's pioneered polymer grip technology for the sports world, revolutionizing golf, tennis, and bicycling with grips that reduced fatigue, enhanced control, and reduced injuries due to repetitive motion.

## WINN WITH MHX ROD GRIPS.

- Provides tacky, non-slip performance in all weather conditions including rain, snow and sub-freezing temperatures.
- Provides comfort and control; varied textures provide support and grip comfort where they are needed most!
- All-day comfort.
- Featuring custom MHX design and styling.
- Longer, more accurate casting control when fighting big fish.

# MHX PRO GEAR.

## ► MHX PERFORMANCE JERSEY

Fish comfortably all day because these do not require a base layer or undershirt. Athletic performance and loose fitting for enhanced range of motion and breathable comfort. Best choice for long lasting performance to keep you comfortable while keeping active. Soft against the skin, combining durability along with function and style. Moisture wick system that keeps you feeling dry all day by pulling moisture away from your body to the exterior of the garment where it can quickly evaporate. Looks great wash after wash. 100% Polyester. Wrinkle resistant.
